

Adam Vigeant

UX Designer | Creative Problem Solver

INFO

UX designer with a passion to solve challenging problems. A capable and empathetic mediator between client, business, and development team, with strong problem solving abilities that are rooted in design thinking.

With a thorough knowledge of UX/UI tools and methods, and a high level of adaptability, I am a positive presence in any team I work with.

EXPERIENCE

Design Consultant

POWELL PRINTS | 2015-2021

- Mediated between management, sales, product production, customer service, and clients to produce effective design solutions
- Used Design Thinking to research and implement creative solutions to address business and client needs
- Advised on current design trends and functional improvements
- Ensured brand standards were met and design solutions fulfilled each client's unique needs

Graphic Design Contractor

ADAM VIGEANT DESIGN | 2011-2021

- Collaborate with various clients to create design solutions that met specific needs and vision
- Use effective communication and intentional time-management to produce high-quality design work and meet client's time-frames
- Consistently improve my effectiveness through growth mindset, researching new techniques, and best practices that allow me to communicate with maximum impact
