Adam Vigeant

UX Designer | Creative Problem Solver

INFO

UX designer with a passion to solve challenging problems. A capable and empathetic mediator between client, business, and development teams, with strong problem-solving abilities rooted in Design Thinking.

With deep knowledge of UX/UI tools and methods, and 10+ years experience in visual design, my strong communication skills, high level of adaptability, and growth mindset make me a valuable team-player.

EXPERIENCE

UX & Visual Design Contractor
ADAM VIGEANT DESIGN | 2011-PRESENT

- Collaborate with various clients to implement design solutions that met specific needs and vision
- Use effective communication and intentional time-management to produce high-quality design work and meet client's time-frames
- Consistently improve my effectiveness through growth mindset, researching new techniques, and best practices that allow me to design with maximum impact

Design Consultant
POWELL PRINTS | 2015-2021

- Mediated between management, sales, product production, customer service, and clients to produce effective design solutions
- Used Design Thinking to research and implement creative solutions to address business and client needs
- Advised on current design and functional improvements
- Ideated design solutions to fulfill clients' unique needs, while protecting brand standards and staying within budget and on time
